

ELEVATTO ULTRA

Product composed of acid hydrolysis amino acids, for application at both root and foliar level. Thanks to its content of amino acids and nitrogen, it is able to:

- Encourage all stages of crop development: rooting, flowering, fruit setting and ripening.
- Improve the crop's capacity to react to adverse conditions, frost, stress, drought, etc.
- Influence the regulation of the water balance, which is important in rain-fed crops.
- Facilitate the assimilation of mineral fertilizers.

	Free amino acids	Total amino acids	Total nitrogen (N)	Organic nitrogen (N)
<i>Content (%w/w)</i>	21.9	23.0	4.0	3.5
<i>Content (%w/v)</i>	24.5	25.7	4.5	4.0

pH: 4.2 Density 1.12 g/cc

AMINO ACIDS: ALA, ARG, ASP, GLU, PHE, GLY (8,9), HYS, HYP, ILE, HIS, LEU, LYS, MET, ORN, PRO, SER, TYR, THR, VAL.

FORMS OF USE AND RECOMMENDED DOSAGE

Its application is indicated for foliar and root applications in all types of crops at the following recommended doses:

APPLICATION	DOSAGE
<i>Foliar</i>	100-300 ml/hl of water per application
<i>Radicular</i>	1-15 L/h depending on the crop

STORAGE

It is recommended to store at temperatures of not less than 4°C and not more than 35°C.

COMPATIBILITY

Do not mix with vegetable oils or sulphur. Do not mix with copper derivatives or apply to sensitive crops such as plum.

PRECAUTIONARY STATEMENTS

Keep out of reach of children.

Do not eat, drink or smoke when using this product.
