

<b>CONTENIDO DECLARADO</b>	<b>% w/v</b>	<b>% w/w</b>
<i>Boron (B) water soluble from ethanolamine</i>	5.8	4.9
<i>Molybdenum (Mo) water soluble</i>	2.8	2.4
<i>pH: 8</i>		
<b>OTROS CONTENIDOS</b>	<b>% w/v</b>	<b>% w/w</b>
<i>Seaweed extract Ascophyllum nodosum</i>	1.0	0.9
<i>Amino-carboxylic acids</i>	0.4	0.3

### CHARACTERISTICS

It is a liquid corrector of boron and molybdenum deficiencies. Very useful to promote the process of setting and development of fruit or reserve organs. It is involved in the fixation of nitrogen in the nodules of legumes, and in general in the metabolism of nitrogen within the plant, especially in the synthesis of amino acids and some enzymes. It can be used both foliar and root, in cruciferous, cucurbit, fruit, olive and nightshade crops.

### INDICATION OF CROPS, DOSES AND RECOMMENDED TERMS OF USE

Recommended for foliar application and irrigation at the doses below:

<b>APPLICATION</b>	<b>DOSES</b>
<i>Foliar</i>	150-250 ml/hl
<i>Irrigation</i>	2-3 L/ha

*Use it only in case of a recognized need.*

*Do not exceed the recommended dose.*

### COMPATIBILITY

No cases of compatibility with other products have been detected. In case of any doubt please make a previous test before using.

### STORAGE INSTRUCTIONS CONCERNING THE TEMPERATURE AND THE PREVENTION OF ACCIDENTS

Do not store below the crystallization temperature.

View MSDS.

### PRECAUTIONARY STATEMENTS

Keep out of reach of children.

Do not eat, drink, or smoke when using this product.
